	Feedback
1.	This is incorrect. The autonomous nature of the nursing profession has no impact on nurses acting as defendants in court cases.
2.	This is correct. Nurses must be accountable and demonstrate a high level of responsibility for the care and services they provide.
3.	This is incorrect. The precision in which nurses must practice has no impact on nurses acting as defendants in court cases.
4.	This is incorrect. The specificity in which nurses must practice has no impact on nurses acting as defendants in court cases.

2. If a nurse uses information from research as the basis for making decisions about providing care, this nurse is engaging in which type of practice?

1. Client-based practice

2. Physician-based practice

3. Evidence-based practice

4. Provider-based practice

ANS: 3

Page: 00

	Feedback
1.	This is incorrect. Client-based care does not use information from research as the basis for making decisions.
2.	This is incorrect. Physician-based care does not use information from research as the basis for making decisions.
3.	This is correct. Evidence-based care uses information from research as the basis for making decisions.
4.	This is incorrect. Provider-based care does not use information from research as the basis for making decisions.

3. Today's nurses are often found in remote and often hostile areas, providing care for the sick and dying, working 12-hour shifts, being on call, and working rotating shifts. This is why nursing is universally known as which type of profession?

1. Altruistic

2. Synergistic

3. Optimistic

4. Pragmatic

ANS: 1

Page: 00

	Feedback
1.	This is correct. Nursing has been viewed universally as an altruistic profession composed of selfless individuals who place the lives and well-being of their clients above their personal safety.
2.	This is incorrect. Nursing is not viewed universally as a synergistic profession.
3.	This is incorrect. Nursing is not viewed universally as an optimistic profession.
4.	This is incorrect. Nursing is not viewed universally as a pragmatic profession.

4. With Florence Nightingale's radically new idea about a separate educational setting for nurses, the nursing profession took its first steps toward which of the following?

1. Autonomy

2. Accountability

3. Precision

4. Specificity
